PROFESSIONAL SUMMARY

Quantitative economist with experience across investment banking, credit underwriting, business intelligence, and founder-led strategy. Track record of evaluating investments, building financial models, automating analytical workflows, and translating complex data into decisions across finance, technology, and operations.

EDUCATION

Dickinson College, Carlisle, PA | B.A., Econometrics and Quantitative Economics

Graduation: May 17, 2026

Honors: 1783 Scholar; Music Scholar Award; German Department Writing Award. Coursework: Investments, Econometrics, Empirical Finance, AI in Finance, Product Development.

EXPERIENCE

Sarva | Co-Founder & COO | Head of Data and AI Strategy | Multilingual AI SaaS

Sep 2025 – Present

- Built unit-economics and financial models for a bootstrapped AI-native retail platform, evaluating pricing, runway, and growth scenarios across 13 signed/onboarding stores while guiding the pivot from delivery to inventory and structured product data.
- Built decision frameworks around multilingual voice workflows, SKU normalization, AI-assisted inventory entry, and merchant behavior; translated commercial insights into requirements and priorities for a 3-person engineering team.
- Scaled operating dataset to 15,000+ product records across 70+ brands while managing KPI tracking, fundraising, and capital allocation.

The Pension Boards – UCC | Business Analyst Intern

Jun 2025 – Aug 2025

- Analyzed institutional pricing structures in Excel and Power BI, identifying \$200K+ in projected annual savings and benchmarking comparable plans to support executive decision-making.
- Built automated SQL pipelines and executive KPI dashboards across Finance, IT, and Operations, reducing manual reporting by ~30% and surfacing key cost drivers for leadership.

Qi Meta | Business Intelligence Analyst Intern

Jun 2024 – Dec 2024

- Rebuilt HubSpot lead scoring and automated customer-acquisition workflows, driving a 25% lift in lead-to-customer conversion and eliminating manual handoffs across sales and marketing.
- Analyzed segmentation and behavioral data to identify higher-value customer cohorts across two regions, refocusing outreach toward segments with stronger conversion economics.

Colton Alexander | Investment Banking Intern

Apr 2024 – May 2024

- Built investor-ready pitch books and CIMs across 5+ engagements, using DCF and comparable-company analysis to frame valuation ranges and support management presentations and transaction discussions.
- Screened 10+ buy-side targets, assessing revenue quality, margin trajectory, market size, and strategic fit to prioritize opportunities for investment review.

ONE Bank Limited | Corporate Banking Intern

Jun 2023 – Aug 2023

- Underwrote SME credit risk by stress-testing borrower cash flows, collateral coverage, and debt-service capacity, supporting \$60K+ in loan extensions across four clients.
- Evaluated capital structures and investment portfolios for five high-net-worth clients using risk-return frameworks, translating analysis into structured allocation recommendations.

VENTURE & ACCELERATOR EXPERIENCE

gener8tor gBETA Pennsylvania (with Meta) | Selected Founder — 1 of 10

Jun 2026 – Aug 2026

- Selected 1 of 10 founding teams for gBETA PA with Meta; led GTM strategy, fundraising materials, KPI tracking, and investor preparation.
- Built relationships with 40+ investors, VCs, and mentors through Investor Swarm; presented company strategy at CMU Swartz Center.

996 Labs (Precursor Ventures, w/ Anthropic & JPMorgan) & AltaLab (AltaIR Capital)

Sep – Oct 2026

- Selected 1 of 10 founders nationally for 996 Labs and later AltaIR Capital's AltaLab; worked with investors and operators on fundraising, AI-native GTM, unit economics, and product-roadmap readiness.

PROJECT / RESEARCH EXPERIENCE

Digital Financial Inclusion & Income Inequality — Analyzed Bangladesh/Kenya (2011–2023); found greater digital financial access linked to lower inequality.

Fraud Detection Model — Built Logistic Regression, Random Forest, and XGBoost models on 284K+ transactions; reached ~0.98 ROC-AUC, 84% fraud recall.

FinLingo AI — Shipped an AI-supported investment-banking learning platform (Next.js, Llama 3.1) in one weekend.

LEADERSHIP & COMMUNITY

United States AI Institute (USAII) | Featured Speaker, Global AI Hackathon — 1 of 21 speakers nationally — the only student speaker featured.

Bangladesh Beyond Border | Moderator — 200K+ member community helping students navigate international admissions & scholarships.

Dickinson College Badminton Club | Founder & President — Built a 50+ member campus organization from scratch.

Dickinson College | Resident Advisor, Orientation Leader & United Way Tax Volunteer — Supported student transitions; helped lower-income residents access tax credits.
