## Quantitative Economist | Startup Operator | Data & AI Strategy

farhanazim2015@gmail.com | auronoyf@sarvabazaar.com | +1 551 223 7949 | linkedin.com/in/farhanazimauronoy | sarvabazaar.com

### PROFILE

Quantitative economics graduate and founder with experience across business analytics, finance, AI, startup operations, and applied research. Co-Founder, COO/CFO and Head of Data & AI Strategy at Sarva, building multilingual software for immigrant-owned and underserved retailers. Known for translating ambiguous operational problems into measurable systems, models, and decisions.

### EXPERIENCE

#### Sarva | Co-Founder, COO/CFO & Head of Data & AI Strategy

Sep 2025 - Present

- Help lead an AI-native, multilingual retail software company serving immigrant-owned and underserved independent stores; 13 stores signed or onboarding, 15,000+ culturally specific product records, 70+ brands, and real pilot orders.
- Lead or contribute across strategy, operations, finance, forecasting, CAC/LTV/payback, fundraising, partnerships, commercialization, customer discovery, vendor workflows, and data/AI strategy; work closely with founders, engineers, merchants, mentors, and ecosystem partners.

#### The Pension Boards - UCC | Business Analyst Intern

Jun 2025 - Aug 2025

- Modeled institutional pricing structures and identified \$200,000+ in projected annual savings; built SQL reporting pipelines and Power BI executive dashboards across Finance, IT, and Operations, reducing manual reporting by roughly 30%.

#### QI Meta | Business Intelligence Analyst Intern

Jun 2024 - Dec 2024

- Automated HubSpot acquisition workflows, rebuilt lead scoring, and used segmentation and behavioral data to contribute to an approximately 25% improvement in lead-to-customer conversion.

#### Colton Alexander / ONE Bank Limited | Investment Banking / Corporate Banking Intern

2023 - 2024

- Built DCF and comparable-company analyses, screened acquisition targets, and supported pitch books/CIMs; performed SME credit underwriting and supported more than \$60,000 in loan extensions across four clients.

### FOUNDER & VENTURE ECOSYSTEM

gener8tor gBETA Pennsylvania Together with Meta | Precursor Ventures' 996 Labs | AltaLab with AltaIR Capital | Ascender | NVIDIA Inception | Google for Startups Cloud (\$25K cloud credits) | Showcased Sarva at Carnegie Mellon University's Swartz Center.

### SELECTED RESEARCH & PROJECTS

**Fraud Detection Research** - 284,000+ credit-card transactions; Logistic Regression, Random Forest, XGBoost, SMOTE, and PCA; ~0.98 ROC-AUC and 84% fraud recall.

**Digital Financial Inclusion & Inequality** - Econometric analysis of Bangladesh and Kenya (2011-2023); greater digital financial access was associated with lower inequality in both countries.

**FinLingo AI** - Built and shipped an AI-supported investment-banking learning platform using Next.js, TypeScript, Tailwind, Llama 3.1, and Vercel.

### LEADERSHIP & COMMUNITY

**Bangladesh Beyond Border** - supported a 200,000+ member education community | **United States AI Institute Global Hackathon** - featured speaker; event ecosystem reached 10,000+ participants across 50+ countries | **Dickinson Badminton Club** - founder and president, 50+ members | **United Way** - community tax assistance.
